

Features and Benefits

The Molex Voice Cabling system is expressly designed for voice circuits, such as block cabling and PBX inter connections. The Molex voice cabling system provides a complete range of products to facilitate a complete voice cabling system, including; termination modules, mounting frames, distribution boxes, tester interfaces and over-voltage protection.

The Voice Cabling system is compatible with other popular cabling systems enabling integration with legacy systems for expansion or refurbishment projects.

A wide range of accessories are available to complete a voice cabling system, including; labels, tools and test cords.

- Labelling facilities
- Disconnection plugs
- Tester facilities
- Installation tool
