

Features and Benefits

The 45 x 45mm module has been designed specifically to be compatible with the Legrand range of 45 x 45mm bezels. Molex's PowerCat 45 x 45mm module features an enhanced performance Category 5, RJ45 RJLP connector, designed to support high speed data transmission systems. The module is part of the PowerCat System range of products, that have been designed based on the PowerSum principle of crosstalk measurement and testing.

Molex Premise Networks unique patented RJLP RJ45 connector is designed to meet the highest performance standards in the industry and offers a low profile, space saving design that enables installation in shallow backboxes and trunking.

- Legrand bezel compatible
- Enhanced Performance RJ45 connector
- EIA 568B wired
