

Features and Benefits

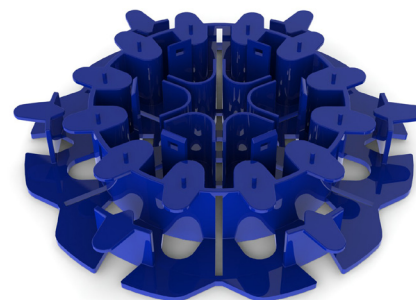

The Self Adhesive Cable Management Hub is designed to be installed as a whole unit or be segmented to allow cable routing as required by the installer. It can accommodate a number of cable diameters up to 3mm and is also stackable either as a whole or in segment, providing unparalleled flexibility.

- Fibre pathway allows for easy storage of excess fibre and multi-directional routing of entry or exit fibres
- Allows storage of fibre - 250µm, 900µm and up to 3mm
- Maintains 30mm bend radius
- Can be split into six separate segments
- Clips together allowing multiple stacks to be formed
- Mountable via centre hole or double sided foam adhesive pad

Technical Information

Mechanical Characteristics

Material: ABS polymer
 Diameter: 96mm
 Height: 22mm with Adhesive Pad
 Shipping Weight: 27g

ORDERING INFORMATION

Order No.	SAP No.	Description
AFR-00472	180600219	Self Adhesive Cable Management Hub (3 pcs)
Compatible with		
RFR-00311	180370276	1U Multi-Function Fibre Enclosure
