

Features and Benefits

The LC connector is the result of increased demands for smaller easier-to-use fibre connectivity. The LC connector has reduced the space requirements on equipment bays and distribution panels by 50%.

Adapters are available with a shutter providing a barrier against harmful light emissions and with either precise zirconia ceramic or rugged phosphor bronze alignment sleeves.

- Small footprint
- RoHS Compliant
- Zirconia, phosphor bronze and polymer alignment sleeves
- Unique shuttered feature protects from harmful light emissions. Available upon application
