

# Euromod Keystone Jack Fascia 25 x 50mm unloaded & wall plates

**molex**

**The unloaded Euromod Keystone Jack Fascia is specifically designed to accept the Molex Keystone Jack product range.**

The angled design reduces bend cord radius particularly in shallow floor box installations. The fascia is supplied with an integral spring loaded shutter for dust protection and a labelling window facility. The white Euromod Keystone Jack fascia is designed to fit into the white single gang (86 x 86mm) and double gang (86 x 145mm) wall plates, which are manufactured from the same colour matched material.

#### IMPORTANT INSTALLATION NOTE:

The unloaded fascia must be snapped into the wall plate before the terminated Keystone Jack is assembled into the fascia. For full installation instructions go to the Molex website: <https://www.molexces.com/resource-library/installation-instructions/>

## Features and Advantages

Integral spring loaded shutter

Protected labelling facility

RoHS compliant

25 x 50mm angled fascia

Compatible with Keystone Jacks

Matching single and double gang wall plates

Euromod Keystone Jack fascias are compatible with adapter collar part no's 17-0231-02 and 17-0232-02 when UTP Keystone Jacks are installed. The collars are not compatible with these fascias and shielded jacks.

## Specifications

#### MECHANICAL
