

MOD-Snap Keystone Fascia 38.5 x 25mm Unloaded

molex

The unloaded MOD-Snap Keystone Fascia is specifically designed to accept the Molex Keystone Jack product range.

The angled design reduces bend cord radius particularly in shallow floor box installations. The fascia is supplied with an integral spring loaded shutter for dust protection and a window labelling facility. The product is compatible with the Mod-Snap wall plate range. Part numbers of compatible wall plates are shown below.

IMPORTANT INSTALLATION NOTE:

The unloaded fascia must be snapped into the wall plate or floor plate before the terminated keystone jack is assembled into the fascia. For full installation instructions go to the Molex website: <https://www.molexces.com/resource-library/installation-instructions/>

Features and Advantages

38.5 x 25mm angled fascia

Integral spring loaded shutter

Protected labelling facility
